

Tick tock around the clock

Chorus

Look at your watch! Look at the clock!
It goes: tick, tock, tick, tock all around the clock.
See the minutes and the hours go by.
See the hours and the days go by.

What time is it?
It's half past eight.
Time for school, so don't be late!
What time is it?
Quarter to nine.
My classes start and I feel fine.
What time is it?
Quarter to one.
I'm in the playground having fun.
What time is it?
Quarter past three.
I go home and watch TV.

Bridge

Ski badee bap bap!
I feel alright.
Sing and dance until midnight
Ski badee bap bap!
I just can't stop
The party's here on Planet Pop!

Tick tock around the clock

(Chorus)

What time is it? It's half past four.
I lay the table and sweep the floor.
What time is it? It's six o'clock.
Soup for dinner, it's nice and hot!

What time is it? It's eight PM.
I think I'll watch TV again.
What time is it? It's nine PM.
That means that it's bedtime then!

(Bridge)

(Chorus x2)
